## Supplemental Information – Worley Family

Information which we have deals with two points; (1) We don't have any documents or family information which links George Worley with the John and Elizabeth Worley family. I have long thought that he might be a sibling to Debbie's great-grandfather, William S. Worley, but we have never had the proof. If we could find this family in the 1880 census, then the proof should be there. However, we can't locate them in 1880. We know that that they were in the Grundy/Marion county area. If anyone can connect George with our Worleys as on the [grundycountyhistory.org](http://grundycountyhistory.org) website, we would dearly love to communicate with them. (2) the information on the website about Pearl Worley is not correct. Pearl Worley, the daughter of Benjamin Franklin Worley, was born in either Feb or March of 1900. This we know from the 1900 census and family information. However, Pearl was not married to Clyde Boyd as listed on the website. (There was more than one Pearl Worley, apparently) Pearl, the daughter of Benjamin Franklin Worley, was married to Roy King, moved to Harlan County, Ky, moved eventually to Dayton, Rhea County, Tn, where her and Roy are buried. Pearl died 4/7/1964. Roy's brother, Julius Warren King married Elizabeth (Lizzy) Worley the daughter of Henry Worley who was a brother to Benjamin Frankin Worley. They also moved to Harlan Co. Ky, and eventually Ohio. (information collected from various records and family members.) Pearl and Lizzie were first cousins. The Kings were from Coffee County around Manchester and Tullahoma. Several Grundy county familys who were connected through marriage or some other means migrated to Harlan Co. Ky. at this time. Almost all of them had connections to the Coal Mining industry.
